

Fig 4B raw gel image

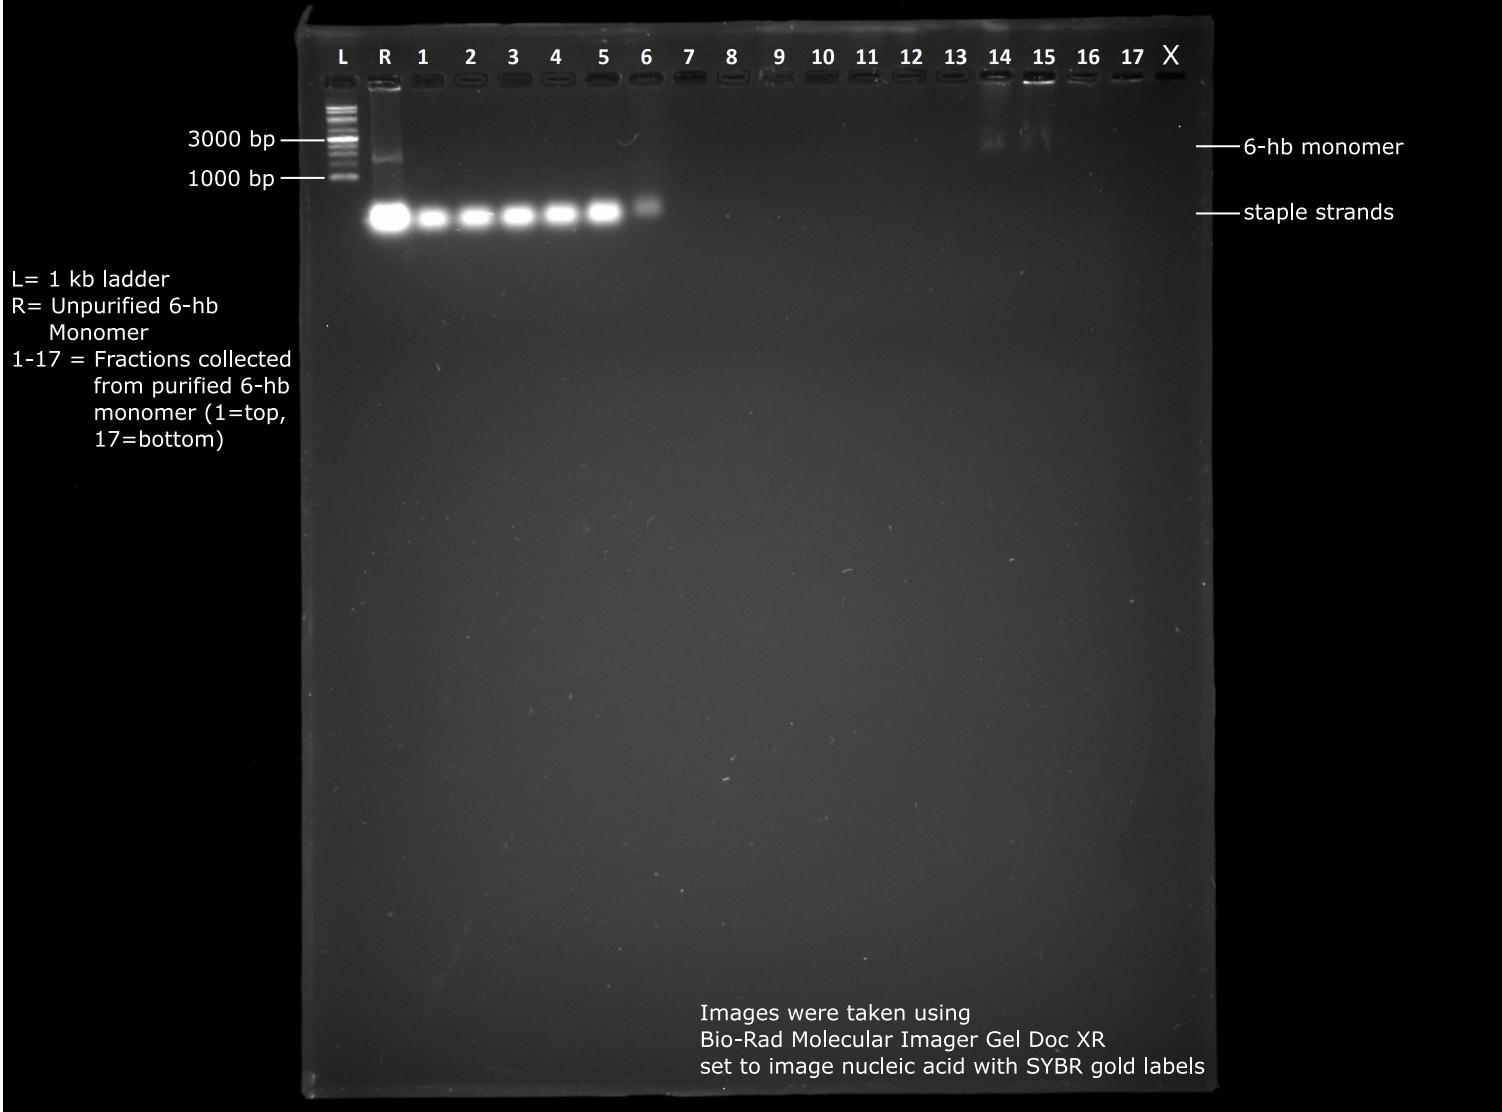

Fig 4H raw gel image

RZC: Rate Zonal Centrifugation
O/N: Overnight

L= 1kb DNA ladder
1= 5X Amicon spin filter purified SC
2= SC RZC purified with O/N gradient
3&4= SC RZC purified with O/N gradient and buffer exchange
5= SC RZC purified with LEGO gradient
6&7= SC RZC purified with LEGO gradient and buffer exchange

Images were taken using Bio-Rad Molecular Imager Gel Doc XR set to image nucleic acid with SYBR gold labels
